

A REVOLUTION FOR MEDICAL FACILITIES

Do you want to

-  Reduce risks & liability?
-  Reduce costs significantly?
-  Increase efficiency & safety?
-  Reduce environmental footprint?

*Medical Waste is
a Valuable Resource*

Cheaper, better, safer, and faster than the traditional method!

Terragon Environmental Technologies brings you **MAGS**, an award-winning, patented waste-to-energy appliance that converts all your waste to clean thermal energy. Turn your problem into opportunity and enjoy the benefits that MAGS provides. Interested to know more? Email us at info@terragon.net and ask for details.

The World's Best Waste-To-Energy Technology

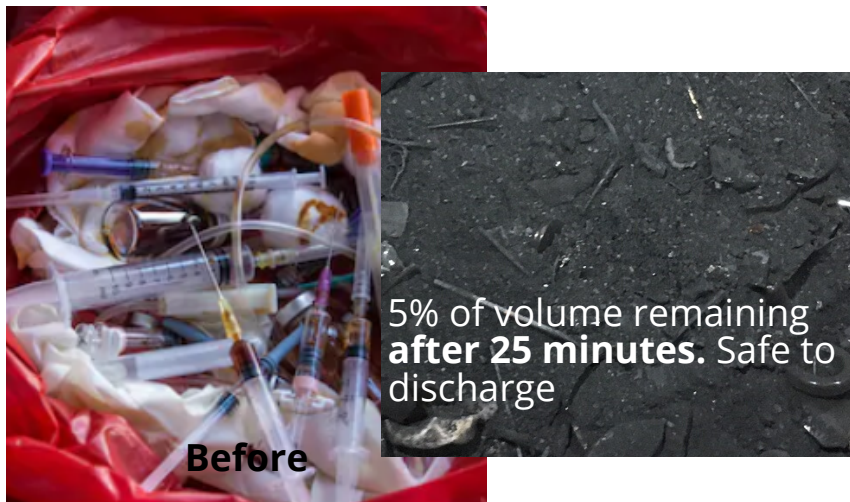

At Your Fingertips!

How it Works

- Use your waste to heat your facility
- Treat your waste on-site
- Produce "free" clean thermal energy
- Save thousands of dollars in waste management
- Become a "Zero Waste" hospital

Good To Know

- Most waste streams are accepted including: biomedical, pharmaceutical & hazardous waste
- Up to 95% reduction of initial waste volume
- Effective destruction of infectious materials
- Clean gas emissions & greenhouse gas reductions
- Self-sufficient operations

Book your appointment with one of our experts to know if your facility can benefit from MAGS. **Visit us** at terragon.net or **call us** at 514-938-3772. **Stop wasting your medical waste!**
